

Part Five

Spread the Word! **Options for Citizen Involvement** *and Contact Information to Obtain Additional Resources*

Goal

To identify frameworks and options for educating the public about the water quality assessment, monitoring, and protection process and bringing the public into the process.

| Module | Material | Time |
|--|--------------|------------|
| 17. Spread the Word! A Sampling of Programs as Options for Citizen Involvement | Overhead 5-1 | 25 minutes |

Part Five is designed to identify programs that serve as ready made formats to get the public involved in water quality monitoring, assessment, and protection.

Upon completion of **Part Five**, participants will be able to:

1. Identify and obtain resources to contact those programs which encourage and facilitate public involvement in water quality, monitoring, assessment, and protection.
